EPA-HQ-2014-001702	Robert R Yocum		MCAN submission J-13-0003 through J-13-0006, submitted January 11, 2013. I could not find a document number on your web site, only a summary paragraph (http://www.epa.gov/biotech_rule/pubs/submissions/j130003c.htm). What I would like to receive is the entire submission. I know it is not your fault, but your web site is one of the most difficult to navigate that have ever encountered, and I have been using computers for 45 years. For example, why don't you have a link attached to the summary paragraph that allows easy ordering of the actual document? Any decent commercial web site makes it easy to buy stuff. You have made it difficult. Please pass this comment to your "programmers. Thanks - Rog	12/9/2013

EPA-R9-2014-004940	David A Schlotterbeck	Haley & Aldrich, Inc.	I am trying to obtain information (site investigation, remediation, enforcement) on the property located at 720 Indigo Court in Pomona, CA. The site is a former plating facility occupied by J.R. Electroplating (1977-1993), Silver Works (1993-1995) and Pomona Plating (1995-1998). EPA ID numbers for this address include CAD981975139 (Pomona Plating '97) and CAL000092801 (Silver Works '94). The EPA reportedly tasked the Superfund Technical Assessment and Response Team (START) to begin an assessment of the Pomona Plating site in April 1998. According to a previous records review, the last correspondence dated 30 June 2008 from the EPA Region 9 indicated dissatisfaction with a workplan submitted by Pomona Plating. However, the workplan was not identified in the files provided by the EPA. Does the EPA have any records post 30 June 1998 for this address, EPA ID numbers or former tenants?	3/25/2014

EPA-R5-2014-008937	Elizabeth A Grobe	Civil & Environmental Consultants, Inc.	Looking for files related to historic and current operations at the ArcelorMittal Cleveland, LLC Steel Manufacturing Facility located at 3060 Eggers Avenue, Cleveland, Cuyahoga County, Ohio. The facility is being investigated under RCRA Corrective Action, Ohio EPA ID number: OHD 004-218-673. This request is being made as part of the Current Conditions Reporting phase of the RCRA process. Previous owner names: ISG Cleveland, Inc.; LTV Steel Company Cleveland Works; Republic Steel Company. Particularly interested in historical information: aerial photos, information on historic operations, USEPA inspections, Notices of Violation, information on waste generation and handling, potential impact from surrounding properties, etc. Interested in all available information from the life of the facility, which began operations in the early 1900s. Also interested in any information related to a former coke plant that operated adjacent to the Facility (see attached historical photo). This operation was not part of the steel facility and appears to have been demolished in the mid-to-late 1960s. In 1970, the ArcelorMittal facility was expanded and a building was constructed over portions of the former coke plant. Who operated that coke plant? How was it closed?	7/29/2014

EPA-R10-2014-004587	Robert E Mintz		Please note: the agency employee most familiar with the requested records is: Chan Pongkhamsing CWA 404 Enforcement Coordinator Aquatic Resources Unit Ecosystems, Tribal, and Public Affairs Office U.S. Environmental Protection Agency, Region 10 1200 Sixth Avenue, Suite 900, ETPA-083 Seattle, Washington 98101 (206) 553-1806 According to Mr. Pongkhamsing, "a small file in our Federal Records Center" has been identified as being possibly relevant. The requested records are as follows: documents that show the basis of the 120.25 foot water level referred to in the letter dated July 26, 1990, regarding findings of Fact and Compliance Order No. 1090-05-23-309, issued May 24, 1990, by EPA Region X, pursuant to sec. 309 of the Clean Water Act. The background of this request is as follows. Paragraph 1(g) of the Order portion of the Findings of Fact and Compliance Order, page 6, in Docket No. 1090-05-23-309, required "A written commitment to maintain water levels in the subject wetland at an elevation sufficient to maintain the wetland characteristics of the area. This water level shall be acceptable to EPA and shall be modified at EPA's direction if monitoring demonstrates the need for such a change based upon a reduction in wetland characteristics." This Compliance Order was followed by a letter from EPA Region 10 to the mayor of Anchorage, dated July 26, 1990, which stated, among other things: "Please note that the Municipality has also committed to operating the buried weir at the site so as to maintain a water level in the wetlands of approximately 120.25 feet above sea level." My request is for any documents that show why or how the specific water level of 120.25 feet above sea level was selected.	3/14/2014

EPA-HQ-2014-010176	Amanda Peterka	E&E Publishing LLC	I request all records concerning communications between the Office of Air and Radiation and KiOR Inc. since January 1, 2013 to September 1, 2014. Please include any phone calls, call logs, call sheets, Skype calls or videos, emails, letters, hand-written notes, day calendars, memorandums, meeting agenda sheets, text messages, voice and video recordings and other documented forms of communication between the Office of Air and Radiation and KiOR Inc. If possible, I would prefer to receive the largest number of records or documents in electronic form. I am filing this FOIA request as a "representative of the news media" since I am a reporter for Greenwire "one of Environment & Energy Publishing's five daily online publications. This designation entitles me to a waiver of fees accumulated during the actual search and review process. Nevertheless, if your agency does determine that I should be charged for any part of this request, please contact me before estimated costs exceed \$25. This request is made as part of news-gathering activity and is not for commercial use. FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination. As required by FOIA, I look forward to hearing from your office within 20 days in response to this request. Thank you for your consideration of this request.	9/8/2014

EPA-R3-2014-009037	Adam Kron	Environmental Integrity Project	Dear Regional Freedom of Information Officer: Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. Â§ 551 et seq., I am writing on behalf of the Environmental Integrity Project (EIP) to request records held by Environmental Protection Agency (EPA) Region 3. Specifically, EIP seeks all records related to EPA's review of draft National Pollution Discharge Elimination System (NPDES) permits that the Virginia Department of Environmental Quality (DEQ) intends to issue to eight swine concentrated animal feeding operations otherwise known as the "Murphy Brown" operations. As referenced in the attached letter from David Paylor, and as recently confirmed in a call with DEQ staff, it is our understanding that EPA's review of the eight draft permits has been underway from May 2014 to the present. We seek all records related to this review including any draft permits edited or "marked up" by EPA, external communications with DEQ and the operators, and internal communications within EPA during this time period. Please include in your response an explanation of which documents, if any, may be privileged or exempt from this FOIA request and why. If you claim that the records should not be disclosed, please justify your refusal by referring to the specific exemption that you are invoking under FOIA. Also, please provide those portions of documents with information requested that are not specifically exempted from disclosure. Additionally, if the costs of completing this request will exceed \$100, please contact me with the estimated costs at your earliest convenience. Thank you for your assistance with this request, and I look forward to hearing from you. If I can provide any additional information or answer any questions, please do not hesitate to contact me at (202) 263-4451 or akron@environmentalintegrity.org. Sincerely,	7/31/2014

EPA-R6-2014-010284	Mr. Joseph M Hardgrave	Enercon Services	To whom it may concern, Enercon Services, Inc. (Enercon) is an environmental services company that has been contracted by our client to review any environmental compliance records for twenty five (25) oil and gas production sites located in Payne and Noble County, Oklahoma. Enercon's objective is to perform due diligence seeking any environmental liabilities for these 25 wells and the three owner/operators by requesting any available records regarding environmental compliance/complaints, notices of violations, spill reports, current remediation projects, permits, etc. I spoke with the OCC Division 1 office and was told that the EPA Region 6 would be the best source for oil spill report records. I have attached a list including each facility name, the owner/operator of the site, the section, township, and range, along with the API well number for each site. The owner/operators are B&W Operating, LLC; Devon Energy Production Co LP; and Red Fork (USA) Investments Inc. and Enercon requests a specific focus on B&W Operating, LLC and any environmental compliance history of the company and records of environmental liabilities. Please accept this request for any current or previous (within the last 4 years) files regarding these 25 facilities, especially regarding oil or saltwater spill reports. Thank you, Joseph Hardgrave Enercon Services, Inc.	9/10/2014

I'm asking the significance/reason for 9000 product numbers, and if known those for other registrants where there is a product number sequence jump (to 8000 or 10000). I can take the answer via email or telephone should that be most convenient. Thank you, Bruce McKay	2/3/2014
EPA-R4-2014-004830	Jerry Phillips	Florida PEER	RE: FOIA REQUEST To whom it may concern: Pursuant to the Freedom of Information Act, 5 U.S.C. 552, as amended, Public Employees for Environmental Responsibility (PEER) requests the following documents: Copies of the actual documents submitted to the EPA by the Florida, Department of Environmental Protection as delineated below. The records themselves include information beyond the information that is found on the EPA website. Inasmuch as the online information is only partially responsive to our previous request we are requesting: 1. All Quarterly Noncompliance Reports (QNCRs) submitted to your agency by the Florida, Department of Environmental Protection (FDEP) from the 1st quarter of 2013 through the 4th Quarter of 2013 for the National Pollutant Discharge Elimination Program (NPDES Program); 2. All Significant Noncompliance Reports (SNCs) submitted to your agency by the Florida, Department of Environmental Protection from 1st quarter of 2013 through the 4th Quarter of 2013 for the National Pollutant Discharge Elimination Program. [This request includes all documents that have ever been within your custody or control, whether they exist in agency working, investigative, retired, electronic mail, or other files currently or at any other time.] In a January 21, 2009 memo, President Barack Obama declared the following policy for the Executive Branch: "The Freedom of Information Act should be administered with a clear presumption: In the face of doubt, openness prevails. The Government should not keep information confidential merely because public officials might be embarrassed by disclosure, because errors and failures might be revealed, or because of speculative or abstract fears. Nondisclosure should never be based on an effort to protect the personal interests of Government officials at the expense of those they are supposed to	3/21/2014

EPA-R5-2014-006219	Mr. Charles Halvorson	Columbia University	Hello, I am a PhD candidate in History at Columbia University. I am seeking records related to the Region 5 office's participation in the Ohio River Basin Energy Study (ORBES), which ran from 1976 to 1980 and covered the states of Illinois, Indiana, and Ohio. I have found extensive documentation of ORBES in the national EPA archives in NARA's College Park, MD collection and these lead me to believe that the Region 5 office would have generated records related to the study, many of which may be retained in the regional office. I spoke to Karen Swanson in the Region 5 office and she instructed me to file a FOIA request in order to figure out what records may be held in Region 5. These records may include (but are not limited to) correspondence between regional EPA employees as well as between regional employees and the electric utilities, academic researchers, and environmentalist organizations involved in the study. Records may also relate to the administration of the study, including assessments of the costs of compliance with EPA regulations and surveys of compliance plans for electric utilities. The number of records may be too large to feasibly copy and transmit to me and if this is the case, I can plan a research visit to examine the records onsite at the Region 5 office. Thank you, Charles	5/5/2014

EPA-R4-2013-009799	Mr. Johnny Wilson		To Whom It May Concern: I am collecting data to conduct a study to assess the effectiveness,efficiency and performance of incorporating the criteria and guidelines of National Environmental Policy Act(NEPA) and the Environmental Justice Executive Order 12898 into Backflow Control Ordinances and Management Decisions that Adversely impact minority resident and businesses in State of Georgia. Thus,this letter is a request pursuant to FOIA to obtain a copy of any report/document,blueprint in which EPA evaluated how its funding, oversight and compliance and enforcement authority ensured that the Dekalb County Department of Watershed received funding from Drinking Water State Revolving Fund or funding from any program or source and that it was used to implement and incorporate environmental justice participatory principles,plans or strategies into its Backflow Control policies, rules, or procedures.Many of these participatory strategies are listed in National Environmental Policy Act(NEPA) Environmental Justice Executive Order 12898-Federal Action to Address Environmental Justice. Secondly,I would also like this FOIA request to provide information that would enable the reader to assess EPA evaluation of Dekalb County Watershed Management and whether or not the concept,term or word"EDUCATION" is specifically being used as defined to integrate and encourage minority and low income business and resident to participate and become literate and educated about the execution of its Backflow Control Ordinance. Moreover, I call your attention to whether or not EPA has examined 42 U.S.C and its relationship to strategies of Dekalb County Watershed Management, and whether or not this void has failed to involve minority and low income residents and business in the design, record of discussions and decisions about backflow control application and enforcement	9/10/2013

EPA-HQ-2015-000312	Robert Wampler	The National Security Archive	Documents relating to preparations for or participation in the Bonn Climate Change Conference, which took place from June 3-14, 2013. The Bonn conference comprised the 38th sessions of the Subsidiary Body for Implementation (SBI) and Subsidiary Body for Scientific and Technological Advice (SBSTA), as well as the resumed second session of the Ad Hoc Working Group on the Durban Platform for Enhanced Action (ADP 2). SBI 38 was marked by disagreement over a proposal by the Russian Federation, Belarus and Ukraine to introduce a new item on legal and procedural issues related to decision-making under the Conference of the Parties (COP) and Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol (CMP). This proposal was motivated by dissatisfaction with the decision-making process at the UN Climate Change Conference in Doha in 2012. Other parties opposed considering it as a new SBI agenda item, and instead proposed placing the issue on the SBI agenda item regarding arrangements for intergovernmental meetings. No resolution of the issue was made at this meeting. SBSTA 38 made progress on reducing emissions from deforestation and forest degradation in developing countries and the role of conservation and enhancement of forest carbon stocks (REDD+). The resumed ADP 2 was structured around workshops and roundtables on Workstream 1 (2015 agreement) and Workstream 2 (pre-2020 ambition). The scope of the search for relevant documents would include, but not be limited to, documents prepared for the EPA Administrator Lisa P. Jackson and/or any other EPA officials who were either involved in preparations for the meeting or were part of the U.S. delegation to the meeting.	10/8/2014

EPA-HQ-2014-002595	Mr. Mohamed Saad S EL JAI GENERAL RECYCLING		Dear Madam, Dear Sir, My name is Mohamed Saad. I am from Vienna Austria and I work for GENERAL RECYCLING here in Vienna. We have been mandated by a US based company, to estimate the feedstock of OTR in the USA. Together with other colleagues, we have been trying to call mines and ask them about how many used OTRs they dispose of every year. After more than 4 weeks, the results were not very encouraging. Not knowing whom to ask, I decided to write to you today asking for help. Do you despose of any statistics about OTR feedstock in the USA - preferably by state? In other words, we are intrested in knowing how many used OTRs are there in the following states: UTHA, NEVADA, MONTANA, IDAHO, WYMOING and COLORADO. (OTRs are those big and huge tyres used for heavy machinery) Thank you very much in advance. Best regards, Mohamed	1/15/2014

EPA-R1-2014-002711	Ms. Marisa A Taylor	McClatchy Newspapers	Thank you? Pursuant to the Freedom of Information Act, I am requesting access to information maintained by your agency. I would like a copy of the Premium Class Travel reports that your agency is required to file with the General Services Administration for FY 2009, 2010, 2011, 2012, 2013 and if available at time of processing FY 2014. This report documents premium travel by your agency employees. Agencies must submit data or a negative report to GSA annually. If your agency submitted a negative report, I would like a copy of it. If your agency is exempt, your agency is required submit aggregate information. If your agency was exempt and submitted aggregate information, I would like a copy of the aggregate information. In the event that this request results in research or copying, McClatchy Newspapers requests a public interest fee waiver because the material being sought is to be used in a news story. If a fee waiver is not granted, I agree to pay reasonable duplication costs. However, please notify me in advance if you anticipate those fees will exceed \$50. I would prefer an electronic version of these reports. However, if one is not available or providing an electronic version would delay processing, I would accept the report on paper. If any part of this request is not granted, please provide legal justification in writing for each portion of information withheld, and cite the specific exemptions in FOIA law that allows that withholding. We would argue strongly that there is a significant public interest in our reviewing the material being sought. As the nation's third largest newspaper group with 30 dailies and a combined circulation of nearly 3 million, we feel we qualify as acting in the public interest. The cost of travel by government officials is obviously of interest to the American public. As a result, I would like my FOIA to be processed in an expedited manner. Should this letter prompt questions, feel free to phone me at	1/17/2014

EPA-R2-2015-000099	Mr. Javier Villar-Rosa		To whom it may concern: I am writing to make a request under the Freedom of Information Act of copies of any and all documents produced by the Environmental Protection Agency (EPA) as a result of the closing down of the building know in Puerto Rico as the North Tower of the Minillas Complex ("NTM"), located in the heart of the island's capital San Juan. During the month of May 2012, it became a matter of public knowledge to the citizens of Puerto Rico that the EPA intervened with the NTM as a result of a sever asbestos leak caused by construction work taking place on the 9th floor of the aforementioned site. It has come to our attention that EPA produced at least two, but likely many more, detailed reports of the events that transpired during that month and their subsequent aftermath. The request is procured on behalf of my clients, Zulma Ramos and Juan Banuchi, two business owners who suffered great economic loss and endured emotional hardship as their convenience store located in the basement of NTM came to be permanently closed to the public due to the events that transpired. In particular, I am interested in obtaining copy of any documents regarding: the EPA's ("Agency") decision to conduct Emergency Removal Action and Asbestos Removal Action; the Agency's determination of Potential Responsible Parties; any Administrative Settlement Agreements executed by the Agency in relation to these events; the Order on Consent to conduct cleanup at the building; and any reports on the Representative Sampling Criteria used at the site. However, my request is not limited to these documents or any specific documents, but rather seeks to gather a copy of all the records detailing the EPA's comprehensive intervention at the TNM in the timeframe commencing on the month of May 2012 to the present. Please contact me if you have any question regarding this	10/3/2014

EPA-R10-2014-001357	Travis Ulrich	Hayden Pest Control, LLC	I had a complaint filed against myself regarding an herbicide application earlier this year. When I requested to see the evidence and the complaint presented against me, I was informed that I am not allowed to see such information until AFTER the EPA has made a decision, and that I must file an FOIA request to get it. Therefore, I am making the request that I be sent all information, evidence, and any other files associated with my case. This would include the complaint filed against me by Ms. Julie Simpson of the Nez Perce Tribe, and associated pictures. The only obvious reference number I received was "OCA-084." It was in regards to an herbicide application in Lapwai, ID at the track and field. It can be emailed to me at the provided email address. EPA-R4-2014-005025	Mr. Matthew Drange	Center for Investigative Reporting	Pursuant to my rights under the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I ask to inspect and obtain a copy of the following, which I understand to be held by your region of the federal Environmental Protection Agency: Any and all CERCLA Off-site notices, including but not limited to Notices of Unacceptability, Finding of acceptability letters and any other associated documents or communication, filed from January 1 2004 to present. To the extent responsive documents are available at different times, please provide copies as they become available. I would like these documents in electronic form, preferably as .pdf files via email or CD. If you determine that any or all of the information qualifies for an exemption from disclosure, I ask you to note whether, as is normally the case under the Act, the exemption is discretionary, and if so whether it is necessary in this case to exercise your discretion to withhold the information. If you determine that some but not all of the information is exempt from disclosure and that you intend to withhold it, I ask that you redact it for the time being and make the rest available as requested. In any event, please provide a signed notification citing the legal authorities on which you rely if you determine that any or all of the information is exempt and will not be disclosed. I ask that you notify me of any duplication costs exceeding \$100 before you duplicate the records so that I may decide which records I want copied. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. EPA-R6-2014-006224	Mrs. kay haslam		What information do you have concerning testing and results for water and ground pollution at 12505 and 12601 Memorial Dr, Houston, TX 77024. The property has test wells due to contamination from a laundry many years ago. The property has been sold to a developer and is to begin mixed use high rise development before the end of this year. The property is three blocks from a brand new Spring Branch elementary school. The concern I have is drainage from this field into the existing W-153 water shed which feeds Buffalo Bayou. When you convert 13 acres of treed grassland into concrete without retention you will have flooding. If the water is contaminated we will have an even bigger problem. What type of protection does the EPA do to assure residents in the area that water flow will not impact us with contamination.	5/6/2014

The Quinault Indian Nation has operated these pens for many years and they keep expanding the size of the pens and the number of fish being raised and released into Lake Quinault. The fish are fed and the excess fish food drops to the bottom along with the fecal droppings. Lake Quinault is a low flushing water system. The Quinault Indian Nation closed Lake Quinault to all people during the summer of 2013, citing the septic seepage by the private property owners on the North Shore of the lake. It seems the QIN should clean up its own house before blaming others for the reported pollution in the Lake.	5/21/2014

EPA-R3-2014-005375	Mary E Greene	Environmental Integrity Project	This FOIA is in follow-up to FOI Number: EPA-R3-2014-00002, dated March 13, 2014. The last two pages of the response (one single-sided page, one double sided - enclosed herein and marked as pgs 11, 13-14), contains two different lists of well operators identified as using diesel in their well operations. Each well is identified by an API #. I have the following questions with regard to the wells/operators identified on those three pages: 1. The three pages identified above and attached herein appear to be partial lists or attachments to another document or documents. I am requesting copies of any other documentation related to those lists, including the original document or record to which they were attached. 2. With regard to the wells (identified by operator and API #) set forth in the lists, I am requesting copies of any documents or records related to each well's UIC permitting status, including permit applications, permits, or other documents related to the determination of whether a Class II UIC permit is required pursuant to the February 2014 Permitting Guidance for Oil and Gas Hydraulic Fracturing Activities Using Diesel Fuels: Underground Injection Control Program Guidance #84. 3. I am also requesting any documents or records related to whether the wells listed on the last page of the March 13, 2014 FOIA response (it is double-sided (pgs 13-14, attached)) receive injectate containing any one of the 5 CASRNs set forth on p. 4-5 of the above referenced guidance. 4. EPA-HQ-2014-001894	Miss Maritzabel Mayoral	MSCI Inc.	Dear FOIA officer, When expending Superfund monies at a CERCLA site, EPA must conduct a search to identify parties with potential financial responsibility for remediation of uncontrolled hazardous waste sites. EPA regional Superfund Waste Management Staff then issue a notice letter to the Potentially Responsible Party (PRP). Data from this notice letter is used to form the Site Enforcement Tracking System (SETS). Our FOIA Request: Pursuant to the Freedom of Information Act, we request that EPA provide MSCI with the most recently updated database of all the PRP notifications that have been mailed by EPA in 2012, as part of the Superfund Site Enforcement Tracking System. The data should include the following fields: The related CERCLA site name (i.e., the "SITE_NAME" field) The field identifying whether the CERCLA site is a National Priorities List (NPL) site (i.e., the "NPL_STATUS" field) The PRP name (i.e., the "PARTY_NAME" field) The PRP address (i.e., the "STREET1", "STREET_2", "STREET_3", "CITY", "STATE", and "ZIP_CODE" fields) The date the Special Notice Letter was issued (i.e., the "SNL_DATE" field) The date the General Notice Letter was issued (i.e., the "GNL_DATE" field) The C3_SITE_ID field The NOTICE_LET field The SETL_DATE field The SETL_NAME field Also, if available, please include SIC code and CUSIP for each violator. We respectfully request this data be made available in Microsoft or Excel format. If this isn't feasible, please provide the data in tab-delimited-text or ASCII delimited format. Please include the most recent documenter report for this data. This documenter report should feature a list of field definitions and all other relevant documenter report elements. Please notify me if the costs that MSCI ESG Research has to pay for this information exceed \$50, or if the requested data is not available this year. Thank you in advance for your	12/16/2013

EPA-HQ-2013-009962	Dr. John H Scofield	Oberlin College	I am requesting to learn the mean Energy Star scores of all buildings whose data have been entered into Portfolio Manager broken down by building type. In particular I am asking to learn the mean score for 1) Data Centers, 2) Senior Care facilities, 3) Medical Offices, 4) Residence Halls/Dormitories, 5) Supermarkets, 6) Warehouses, and 7) hospitals. In addition I am requesting to be given copies of any emails, internal memos, spread sheets, documents (including information exchanged with contractors), preliminary reports, etc. concerning data trends for ALL types of buildings -- both the 7 building types I listed above, and the 4 building types that ultimately appeared in the October 2012 DataTrend publications. The time frame would be the six months preceding the October 2012 release of the Data Trend publications. In October 2012 the EPA produced publications called "Energy Star Portfolio Manager DataTrends" which highlighted patterns for Energy Star scores for certain types of buildings. The buildings highlighted were offices, hotels, retail stores, and K-12 schools. The mean Energy Star scores for each of these building types were reported in these DataTrend publications. But information regarding other building types (those I have listed above) were curiously omitted. The effort that produced these DataTrend publications no doubt looked at other types of buildings and summarized their performance. But this information has not been made public. That is what I am requesting here.	9/16/2013

Â§ 552, I request access to and copies of any and all notice letters issued by EPA to potentially responsible parties informing them of their potential liability under CERCLA and/or inviting them discuss involvement additional remediation at the Lees Lane landfill site in Louisville, KY., within the last 12 months. I also request a listing of any and all PRPs for the site. I would like to receive the information in CD format. I agree to pay reasonable fees for the processing of this request in an amount not to exceed \$25. However, please notify me prior to your incurring any expenses in excess of that amount. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the ongoing efforts to clean up and make safe a former Superfund site next to a residential community and public recreational trail and the Ohio River that is of current interest to the public because the EPA in its current five year review of the site concluded that a protectiveness determination of the remedy could not be made at this time without further information, and recommended further remediation. This information is being sought on behalf of The (Louisville) Courier-Journal for dissemination to the general public. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decisions. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. EPA-R7-2014-002717	Ms. Marisa A Taylor	McClatchy Newspapers	Pursuant to the Freedom of Information Act, I am requesting access to information maintained by your agency. I would like a copy of the Premium Class Travel reports that your agency is required to file with the General Services Administration for FY 2009, 2010, 2011, 2012, 2013 and if available at time of processing FY 2014. This report documents premium travel by your agency employees. Agencies must submit data or a negative report to GSA annually. If your agency submitted a negative report, I would like a copy of it. If your agency is exempt, your agency is required submit aggregate information. If your agency was exempt and submitted aggregate information, I would like a copy of the aggregate information. In the event that this request results in research or copying, McClatchy Newspapers requests a public interest fee waiver because the material being sought is to be used in a news story. If a fee waiver is not granted, I agree to pay reasonable duplication costs. However, please notify me in advance if you anticipate those fees will exceed \$50. I would prefer an electronic version of these reports. However, if one is not available or providing an electronic version would delay processing, I would accept the report on paper. If any part of this request is not granted, please provide legal justification in writing for each portion of information withheld, and cite the specific exemptions in FOIA law that allows that withholding. We would argue strongly that there is a significant public interest in our reviewing the material being sought. As the nation's third largest newspaper group with 30 dailies and a combined circulation of nearly 3 million, we feel we qualify as acting in the public interest. The cost of travel by government officials is obviously of interest to the American public. As a result, I would like my FOIA to be processed in an expedited manner. EPA-HQ-2014-006091	Coleen Gerber		On behalf of Iofina Chemical, Inc., we write to submit a request for the company's records under the Freedom of Information Act (FOIA) (5 U.S.C. §552). We ask for a copy of records located within the Antimicrobial Division of the Office of Pesticide Programs (OPP) for the following two pesticide product registrations: 1) Iofina Chemical, Inc. - Trichloromelamine (EPA Reg. No. 65146-1); originally registered September 25, 1992 by H&S Chemical Co. Inc. 2) Iofina Chemical, Inc. - "Chloro Glass Sanitizer (EPA Reg. No. 65169-1); originally registered May 17, 1966 by Chemmark International We ask for a copy of all records contained within, or pertaining to, the pesticide registration jackets for the above products, including the original applications submitted to EPA to register these products (later transferred to Iofina Chemical), copies of the studies and scientific test data, such as product chemistry and acute toxicity data, as well as EPA science reviews of such data. We are attaching a copy of the Agent Authorization Letter between Iofina Chemical, Inc. and Keller and Heckman LLP for your reference. We note that the applications submitted by Iofina Chemical, Inc. to EPA do not contain information requiring redaction and thus, we are hopeful copies of the applications can be expeditiously provided to us. We would appreciate receiving copies of the requested documentation as it becomes available, on a rolling basis. We agree to pay search and reproduction costs for the requested records. We ask that you call Coleen Waldenmayer at 202-434-4304 or Waldenmayer@khlaw.com if you have any questions. Thank you in advance for your assistance.	4/30/2014
EPA-R6-2014-006682	Shilo Gage	Cardno ATC	I am looking for information related two RCRA violations that were determined on 7/15/2003 and achieved compliance on 10/30/2006. I need to know what type of hazardous material was at the property (5301 Sierra Vista Drive) and why the property received violations. The penalty amounts related to the violations are fairly significant so I am thinking something other than a permit issue occurred. Need clarification. The property is also listed on the ICIS database with the FRS ID # 110009458130. I need to know why the property was listed on this database. Both incidences, RCRA and ICIS, are associated with the EPA ID NMD982283566. Are they related to the same issue? The property was identified as Westinghouse Engineered Products for both issues.	5/20/2014

EPA-HQ-2014-009802	Mr. John T Arnold	Delta Environmental Law, LLC	This FOIA request seeks information related to: "Collins, A. G. (1974). "Saline Groundwaters Produced with Oil and Gas." Prepared by U.S. Department of the Interior, Bureau of Mines; Prepared for Office of Research and Development, U.S. Environmental Protection Agency EPA-88 0/2-74-010." This document states: "More than 60,000 saline water analyses were collected by the U.S. Bureau of Mines for entry into an automatic data processing system. Screening of the data eliminated 30,000 analyses; 20,000 were entered into STORET, the data processing system formulated by the Environmental Protection Agency...The water analyses are used in studies related to identifying the source of a brine, classification of groundwater for use in geochemistry, plotting local and regional salinity maps, determining sources of pollution of freshwater and land by brines, and studies of the use of saline water for desalination to produce freshwater and valuable minerals. Examples of each of these studies are given in this report." Of the 20,000 analyses entered into the STORET database, 1,695 pertain to saline water samples taken in Louisiana. It is the information related to these Louisiana samples I am interested in obtaining. I request the following information as it relates to the aforementioned study and work conducted in relation to the STORET dataset. 1. Any and all documentation related to water analyses used to identify sources of pollution of freshwater and land by brines in Louisiana. 2. Any and all salinity maps of local or regional areas in Louisiana plotted with the analyses and used to determine sources of pollution, potential waste disposal zones, and potential pollution areas. 3. EPA-R2-2014-005355	Ms. Lindsay Glassman	AEI Consultants	According to a regulatory database, the site identified as Keene-Stonco and Stonco Lighting at 2345 Vauxhall Road in Union, New Jersey is site is identified as a CERCLIS site under Site ID 0206414. The EPAID is NJD053513644. This building is currently vacant; however, former operations included metal parts coating and painting for the lighting industry for 40 years. Environmental assessments at a condominium development downgradient indicated the discovery of TCE in soil and groundwater that was attributed to this site's former operations. EPA-level Discovery, Screening, Preliminary Assessment, and Site Investigation were completed there in 2010-2011. A site investigation is being recommended was reported in the regulatory database, to evaluate HRS scoring. Based on this information, AEI seeks relevant information maintained by the EPA regarding site remediation and/or groundwater plume mapping at this facility. AEI is conducting an environmental assessment at a nearby property and would like to determine if, based on this site's proximity to the subject property and the previously identified presence of migratory TCE at other sites in the vicinity, vapor encroachment may be a concern to our property.	4/7/2014

EPA-R3-2014-002713	Ms. Marisa A Taylor	McClatchy Newspapers	Pursuant to the Freedom of Information Act, I am requesting access to information maintained by your agency. I would like a copy of the Premium Class Travel reports that your agency is required to file with the General Services Administration for FY 2009, 2010, 2011, 2012, 2013 and if available at time of processing FY 2014. This report documents premium travel by your agency employees. Agencies must submit data or a negative report to GSA annually. If your agency submitted a negative report, I would like a copy of it. If your agency is exempt, your agency is required submit aggregate information. If your agency was exempt and submitted aggregate information, I would like a copy of the aggregate information. In the event that this request results in research or copying, McClatchy Newspapers requests a public interest fee waiver because the material being sought is to be used in a news story. If a fee waiver is not granted, I agree to pay reasonable duplication costs. However, please notify me in advance if you anticipate those fees will exceed \$50. I would prefer an electronic version of these reports. However, if one is not available or providing an electronic version would delay processing, I would accept the report on paper. If any part of this request is not granted, please provide legal justification in writing for each portion of information withheld, and cite the specific exemptions in FOIA law that allows that withholding. We would argue strongly that there is a significant public interest in our reviewing the material being sought. As the nation's third largest newspaper group with 30 dailies and a combined circulation of nearly 3 million, we feel we qualify as acting in the public interest. The cost of travel by government officials is obviously of interest to the American public. As a result, I would like my FOIA to be processed in an expedited manner. Should this letter prompt questions, feel free to phone me at	1/17/2014

EPA-R2-2014-003087	John Shoemaker		This is in reply to request EPA-R2-2014-002918 for additional information. I live across the street from 150 North Street Rye NY 10580. A real estate developer recently approached the Rye City Council and claimed the vacant property is now ready for residential development despite the fact that there was significant petroleum leakage in the past (the site used to be a gas service station that had serious problems). This is the local newspaper article: http://www.ryerecord.com/news/affordable-senior-housing-project-in-the-works.html The real estate developer claimed that the benzene levels were low enough that the construction of residential housing could go forward, however the units would have to be at least one-story above ground - given the benzene levels. Recently, the adjacent gas station (300 Theodore Fremd Ave Rye, NY) was required by the Westchester County officials to replace there leaking oil tanks. This project is currently ongoing and there is significant vapors that the entire neighborhood is experiencing from this new project. I am requesting any environmental documents related to 150 North Street Rye NY 10580 that describes the prior gas station oil leaks on this property. 150 North Street used to have a gas station on its property 20-30 yrs ago until the county shut-it down for environmental reasons. The 150 North Street property was remained vacant since that point (20-30 yrs ago). As someone that lives across the street from 150 North Street (which is under considerations for a 55-unit housing complex for seniors) and witnessing the old oil tanks being excavated at 300 Theodore Fremd Ave Rye, NY site (adjacent to 150 North Street), we are concerned about the history behind the 150 North Street property being vacant for 20-30 years for previous oil spills. We are requesting any relevant EPA information regarding the last environmental assessment	1/29/2014

EPA-R10-2014-007356	Ms. Nina Le Baron		I am requesting an investigation as to the effects of "Geo-Engineering" by 1. Breathing in these substances (are they contributing factors for lung diseases?), 2. Consuming these substances (affects once they get into our water supply?), 3. Do these substances contribute to Ocean Acidification, 4. The effects on plants of these substances that are being sprayed into our air? There are many links out on the Internet that explain what "Geo-Engineering" is, in case your staff has not heard about it due to the media black out on this topic. Here are some good websites: http://www.geoengineeringwatch.org/the-era-of-stratospheric-geoengineering-chemtrails-greenhouse-grown-organic-food-and-the-future-of-planet-earth/ http://www.globalresearch.ca/chemtrails-the-consequences-of-toxic-metals-and-chemical-aerosols-on-human-health/19047?fb_action_ids=10201661895855314&fb_action_types=og.likes&fb_source=aggregation&fb_aggregation_id=288381481237582 http://www.rense.com/general11/chemtrailproveit.htm http://beforeitsnews.com/chemtrails/2013/07/no-doubt-chemtrail-proof-for-the-sheep-who-call-them-contrails-2431040.html http://12160.info/profiles/blogs/best-ever-chemtrail-evidence My Mom passed away from "Idiopathic Pulmonary Fibrosis" in 2010 and her lungs filled up with fibroid tumors that no doctor could explain: idiopathic pulmonary fibrosis (IPF) is a progressive and generally fatal disease characterized by scarring of the lungs that thickens the lining of the lungs, causing an irreversible loss of the tissue's ability to transport oxygen. IPF ultimately robs a patient of the ability to breathe. The American Lung Association says that "Chronic obstructive pulmonary disease (COPD) is expected to become the third leading cause of death by 2020."	6/12/2014

(1) 1-5-013:010) between the years of 1980 and 2013. The property's EPA Identification number (EPA ID) is HID059472357 and the Integrated Compliance Information System's National Pollutant Discharge Elimination System (ICIS-NPDES) number is HIF001194. The company has undergone several name changes between the years of 1980 and 2013. The property owner(s) may be listed in the manifest documents as: Brewer Chemical Corporation (Brewer Chem Corp), Brewer Environmental Industries, BEI Hawaii (BEI), or as a combination of the prior company names. The information yielded from these documents will be used solely to better understand the environmental concerns and potential impacts past industrial activities at the site may incur on environmental and human health. These documents will help ARCADIS implement the most technically effective and safest remediation strategy at the site. EPA-HQ-2014-002710	Ms. Marisa A Taylor	McClatchy Newspapers	Pursuant to the Freedom of Information Act, I am requesting access to information maintained by your agency. I would like a copy of the Premium Class Travel reports that your agency is required to file with the General Services Administration for FY 2009, 2010, 2011, 2012, 2013 and if available at time of processing FY 2014. This report documents premium travel by your agency employees. Agencies must submit data or a negative report to GSA annually. If your agency submitted a negative report, I would like a copy of it. If your agency is exempt, your agency is required submit aggregate information. If your agency was exempt and submitted aggregate information, I would like a copy of the aggregate information. In the event that this request results in research or copying, McClatchy Newspapers requests a public interest fee waiver because the material being sought is to be used in a news story. If a fee waiver is not granted, I agree to pay reasonable duplication costs. However, please notify me in advance if you anticipate those fees will exceed \$50. I would prefer an electronic version of these reports. However, if one is not available or providing an electronic version would delay processing, I would accept the report on paper. If any part of this request is not granted, please provide legal justification in writing for each portion of information withheld, and cite the specific exemptions in FOIA law that allows that withholding. We would argue strongly that there is a significant public interest in our reviewing the material being sought. As the nation's third largest newspaper group with 30 dailies and a combined circulation of nearly 3 million, we feel we qualify as acting in the public interest. The cost of travel by government officials is obviously of interest to the American public. As a result, I would like my FOIA to be processed in an expedited manner. Should this letter prompt questions, feel free to phone me at	1/17/2014

EPA-R4-2014-005541	Hannah Chang		Dear Regional Freedom of Information Officer: On behalf of Friends of Waterkeeper Alliance, Earthjustice requests records pursuant to the Freedom of Information Act (FOIA) 5 U.S.C. Â§ 552, and pertinent EPA regulations, 40 C.F.R. Part 2, relating to an egg-laying concentrated animal feeding operation in Hyde County, North Carolina owned by Rose Acre Farms, Inc. (the RAF facility). Specifically, we request: 1. Any and all records relating to the RAF facility's coverage under the Clean Water Act's National Pollution Discharge Elimination System (NPDES) program, including but not limited to any and all records relating to the facility's NPDES Permit No. NCA148024. The requested documents include all responsive documents in EPA's possession, regardless of their source and may date back as early as 2003. For purposes of this request, the term records encompasses, but is not limited to, any and all documents, correspondence, minutes of meetings, calendar appointments, memoranda, notes, e-mails, notices, facsimiles, charts, tables, presentations, orders, filings, and other writing (handwritten, typed, electronic, or otherwise produced, reproduced, or stored) that pertain to the specified topic. FEE WAIVER REQUEST Earthjustice requests that EPA waive the fees it would otherwise charge for search and production of the records described above. FOIA dictates that requested records be provided without charge if disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the Government; and is not primarily in the commercial interest of the requester. 5 U.S.C. Â§ 552(a)(4)(A)(iii); 40 C.F.R. Â§ 2.107(l). The requested disclosure meets these requirements and each of the factors to be considered in determining whether a fee waiver is justified. EPA-R4-2014-004108	Nicole Poot		Dear EPA Region 4 Office: I am a current student at Stetson University College of Law, and I am working on a project about junk mail and the environment for one of my classes. For this purpose, I respectfully request any and all current information regarding discarded advertising mail/standard mail/junk mail/direct mail that the EPA may possess for the EPA region 4 (for Florida specifically if that information is available). In particular, I am looking for statistics about the volume of discarded mail that is opened and remains unread in this area and any current data on the tonnage of standard mail specifically that ends up in landfills or gets recycled in Region 4. I have looked at the Municipal Solid Waste figures and was hoping the EPA had similar records pertaining directly to Region 4 and standard mail/waste specifically for Florida. Thank you in advance for your prompt reply and assistance. Sincerely, Nicole J Poot	3/3/2014

EPA-R2-2014-003304	Mr. Brian M Zach	Ramapo College of New Jersey	An Office of Inspector General Public Liaison Report, dated April 2, 2007, and entitled "Environmental Justice Concerns and Communication Problems Complicated Cleaning Up Ringwood Mines/Landfill Site," states on page 19 of 32 (http://www.epa.gov/oig/reports/2007/20070402-2007-P-00016.pdf) that a local organization, Families of Ringwood Mines, started collecting health information on the Ringwood Mines/Landfill Site community in 1992. I am requesting disclosure of this collected health information, as well as any information concerning the Ringwood Mines/Landfill Site community Organization, "Families of Ringwood Mines." Next, a May 2006 NJDHSS/ATSDR Public Health Assessment contains a "Ringwood Neighborhood Action Association (RNAA) Statement on New Jersey Department of Health and Senior Services and Agency for Toxic Substances and Disease Registry's Proposed Public Health Response Plan for the Ringwood Mines Site." (http://www.atsdr.cdc.gov/HAC/pha/ringwood/all%20-%20App.pdf) page 15 of 73, stating that the Ringwood Neighborhood Action Association collected data on the health of residents, conducted in-depth interviews of approximately 85% of the residents, and had residents complete surveys approximately 800 questions long. This community health data collection may have occurred in 2003 and/or 2004. I am requesting disclosure of this community organization's health data collection documents.	2/4/2014

EPA-R7-2014-006075	Mr. John Doe		I live in Holt, Missouri and over the last couple of years, an automotive body shop has opened up in what used to be the Holt Elementary School. I have noticed that the frogs no longer croak outside my window at this time of year and I have reason to believe that they may have been dumping chemicals into the water run-off ditches. I would prefer to remain anonymous as I live in a very small town and don't want, or need, the attention. I don't know if any of my neighbors have noticed anything out of the ordinary, but the kids do play in and around the ditches looking for crawdads, frogs, and just about anything else you might find in water. I would like to know as to whom I would have to contact to have a sample of the water taken or if I take one myself, where could I have it analyzed? Thank you for your time and consideration in this matter. Contacting me by e-mail is preferable and I apologize if I have taken up too much of your time.	4/30/2014

According to the Mahoning County Auditor's website and historical Sanborn maps reviewed, the Property has not been assigned a street address. HzW is performing this assessment pursuant to the Ohio Environmental Protection Agency's (EPA's) Voluntary Action Program (VAP) in accordance with the requirements of the Ohio Administrative Code (OAC) 3745-300-06. To complete this investigation, HzW respectfully requests to review public records on file within all divisions of the Ohio EPA that may pertain to the Property. I understand the US EPA typically needs a street address or facility name to research if documents exist; however, I still need to send you a request to verify no records exist for the Property. Should US EPA records exist for this site, please inform HzW of the necessary procedures to be followed to review the public records. Should records not exist, please provide written documentation indicating the same. This documentation will be included in the VAP PIPA report being prepared by HzW. EPA-R9-2014-008144	Ms. Kira Norman	Brown and Caldwell	I am seeking any records involving complaints, violations, incidents, releases of hazardous materials, fuels, chemicals, dumping, underground storage tanks, septic tanks for the vacant properties in the located in the southern portion of the Rancho Resort Subdivision, near the intersection of South Rancho Resort BLVD and West Helmet Peak road, in Sahuarita, AZ, 85629.	7/7/2014

EPA-R6-2014-008177	Mrs. Kay Haslam		Seeking information on the following sites contaminated with chlorinated solvents: 13534 Memorial Drive, 12442 Memorial Drive, 12442 Memorial Drive, 12601 Memorial Drive, 12505 Memorial Drive in Houston, Texas 77024. Also filed in the Dry Cleaners Registry: MW Cleaners 10244 (RN103953188) at 13534 Memorial Drive 77024, Detail of Voluntary Cleanup Program ID number 1714, Pilgrim Cleaners 111 (RN100659812) at 12442 Memorial Drive 77024. Numerous dry cleaning companies occupied the above listed sites from 1960's to present. Dry cleaning plants operated on sites and dumped unknown number of gallons of chlorinated solvents until 2007. Over 34 monitor wells have been drilled on sites and on 13.5 acre sites directly across the street at 12601 Memorial Drive 77024 and 12505 Memorial Drive 77024. I am requesting whatever information the EPA can provide pertaining to the above sites. Also under the VCP 1714 has any actual attempt to clean up the sites been done? If so, what? Has any independent government agency tested the monitor wells? Has the EPA (or the TCEQ) approved the development of four office buildings/high rise apartments on any of the sites? The building of the four towers requires the excavation of PCE and TCE contaminated dirt adjacent to homes and just 3 blocks from an elementary school. These are my concerns and concerns of neighbors.	7/8/2014

EPA-HQ-2014-004879	Miss lisa m Bishop	UCL	I am writing to ask for evidence behind the claim on this website (http://www.epa.gov/opp00001/factsheets/copper-alloy-products.htm) that the EPA registered five copper-containing alloy products, when used in accordance with the label, "kills 99.9% of bacteria within two hours". I have received a response from the EPA Pesticide Customer under Ticket #:23002-494417 where it stated to make a FOIA request and ask for data supporting labeled claims of 99.9% efficacy for copper alloy products "efficacy reviews for antimicrobial copper alloy products (EPA Registration Numbers 82012-1 through 82012-6)." Could you provide me with the evidence that supports this claim as stated on the website? I'm asking because... I am making this request known to the UK charity Sense about Science, who we are running a campaign called Ask for Evidence - encouraging members of the public to ask for the evidence behind claims they see in everyday life. I am making my inquiry known to scientists and supporters of the Ask for Evidence campaign on their website and through social media. I look forward to your response.	3/24/2014

EPA-R5-2014-005945	Mr. Dick Marcheski	Maryland Biochemical Co.	Under the Freedom Of Information Act, I am requesting a listing of Industrial and Municipal waste water treatment plants that have a direct discharge NPDES Permit in the state of Michigan. Non waste water treatment plant permit holders such as parking lot and storm water run off as well as mine exploration storage ponds may be eliminated from this listing, as we have no application when there is no pollution control treatment for organics. Our market is the sewage and industrial treatment facilities. I request the listing be arranged thusly: By County in Alphabetical Order. Then within that county an alphabetical listing of the plants named with address and a phone number. Where possible we request the person to contact including their phone number and email address. There is no need to separate municipal and industrial nor major or minor permit holders. Please send the information by Flash Stick or CD preferably in a Pdf or Word format. EPA-R8-2014-002718	Ms. Marisa A Taylor	McClatchy Newspapers	Pursuant to the Freedom of Information Act, I am requesting access to information maintained by your agency. I would like a copy of the Premium Class Travel reports that your agency is required to file with the General Services Administration for FY 2009, 2010, 2011, 2012, 2013 and if available at time of processing FY 2014. This report documents premium travel by your agency employees. Agencies must submit data or a negative report to GSA annually. If your agency submitted a negative report, I would like a copy of it. If your agency is exempt, your agency is required submit aggregate information. If your agency was exempt and submitted aggregate information, I would like a copy of the aggregate information. In the event that this request results in research or copying, McClatchy Newspapers requests a public interest fee waiver because the material being sought is to be used in a news story. If a fee waiver is not granted, I agree to pay reasonable duplication costs. However, please notify me in advance if you anticipate those fees will exceed \$50. I would prefer an electronic version of these reports. However, if one is not available or providing an electronic version would delay processing, I would accept the report on paper. If any part of this request is not granted, please provide legal justification in writing for each portion of information withheld, and cite the specific exemptions in FOIA law that allows that withholding. We would argue strongly that there is a significant public interest in our reviewing the material being sought. As the nation's third largest newspaper group with 30 dailies and a combined circulation of nearly 3 million, we feel we qualify as acting in the public interest. The cost of travel by government officials is obviously of interest to the American public. As a result, I would like my FOIA to be processed in an expedited manner. EPA-R6-2014-006752	Robert Doggett	TRLA	EPA sent a letter to TCEQ dated March 3, 2014 referencing drinking water system violation and enforcement data regarding the January 2014 list of Texas public water systems with an enforcement target tool (ETT) score greater than or equal to 11 points. The letter invited TCEQ to take actions on the drinking water systems on the list and to provide comments to EPA on the list itself within 30 days. TCEQ appears to have received a letter regarding this issue in November 2013 on this same issue, and TCEQ responded to EPA with a letter of its own coincidentally on March 3, 2014. This letter explains that TCEQ received October 2013 violation and enforcement data and TCEQ was enclosing a description of actions taken or to be taken on various systems. (I only have the letter, not the description of actions taken that the letter references.) The letter from TCEQ also indicates that TCEQ has developed its own ETT algorithm to identify systems in need of compliance (and it does so on a weekly basis). I therefore request the following documents (in electronic form if available): 1. The lists of systems in need of enforcement that were provided by EPA to TCEQ in 2013 and 2014. (Hopefully in color because these were color coded.) 2. Any documents, comments, letters, including email, provided to EPA in response or regarding the issues discussed in the March 3, 2014 letters since March 3, 2014. 4. Any lists, reports, memos generated in 2013 or 2014 by EPA or TCEQ regarding the issues in the March 3, 2014 letters including the latest list of systems that are out of compliance with either the EPA algorithm or TCEQ algorithm, the validity or problems with the Texas algorithm and the current status of any enforcement action by any gov't agency. 5. I ask that I be sent a copy of an updated list of systems out of compliance generated by EPA going forward. I have made a similar request from TCEQ (attached) but it wants a lot of money to respond.	5/22/2014

I would also like information pertaining to the events leading up to the initiation of the inspection. For reference, the press release for the settlement reads as follows: The U.S. Environmental Protection Agency has entered into a settlement with Memphis Light, Gas & Water Division (MLGW) in Memphis, TN that resolves alleged violations of the Toxic Substances Control Act for polychlorinated biphenyls (PCBs). The alleged violations included improper PCB disposal, storage, marking, recordkeeping and marketing at several of MLGW's facilities. In a consent agreement with EPA, MLGW will pay a \$1,220,576 civil penalty to resolve the alleged TSCA violations and conduct a Supplemental Environmental Project (SEP). EPA-R10-2014-009550	Christine Tabor	Thorsrud, Cane & Paulich	I am a paralegal from an attorney's office in Seattle. Our firm is involved in a case re: a series of magnesium chloride de-icer storage bladder leaks that occurred at 4315 E. Sprague Ave., Spokane Valley, WA 99212 on 5/19/11, 4/22/13, and 7/24/13. The de-icer leaked onto an adjacent property at 4505 E. Sprague Ave. Neither address has been designated as a clean up site regarding this issue. On or about 4/23/13, Jack Tibesar contacted the EPA re: the magnesium chloride leaks, and inquired about the process of cleaning up the spill on his 4505 E. Sprague property. Our office would like to obtain any records that may have resulted from this contact, in addition to any records that may have been generated about the leaks on or around the incident dates listed above. The owner of the storage bladders, Jeff Dobson of Roadwise, Inc. (where leaks originated at 4315 E. Sprague, and his business address is 1516 Geiger St., Tacoma, WA 98465) received letters from the EPA in 2007 and 2009 stating that the magnesium chloride de-icer was not harmful. We would also like to obtain these letters. We would also like to obtain any literature or documents that the EPA can provide regarding the safety of magnesium chloride de-icer fluids.	8/18/2014

EPA-HQ-2014-001368	Michael O'Boyle		We are seeking statistical compilations of enforcement actions under the Clean Air Act, especially in the form of internally published annual reports on enforcement. The real number we're looking for is relatively simple, but we recognize that it could be very difficult to find. We want to get a sense for how many enforcement actions are taking place, specifically under the Prevention of Significant Deterioration (PSD) or Nonattainment New Source Review (NSR) programs. It's our guess and hope that these numbers exist somewhere in your files as EPA likely has such figures in order to assess its own effectiveness. We would like to go back as far as 1998 as possible. I appreciate the likeliness that this would be a cumbersome exercise, but I'm hoping the information is readily available in an annual report somewhere. We are looking not only for EPA enforcement, but state-level enforcement as well if those numbers are available. If such numbers are not available specifically for NSR/PSD enforcement actions, the total number of enforcement actions under the CAA by year dating back to 1998 would suffice. Thank you for your consideration, and please call 480.505.3900 x145 with any questions, or email at address above. Thanks agian. -Michael	11/22/2013

EPA-R3-2014-004682	Gregory Bulfaro		The following records are being requested pertaining to the current RCRA-based monitoring of the underground chemical plume at AMETEK U.S. Gauge Plant #2 in Sellersville, PA. In light of the 2011 re-activation of Perkaise Borough groundwater well #10, coupled with imminent redevelopment plans for said facility, I would like to obtain: 1) Shallow aquifer testing results of the grounds where monitoring well ("MW") 19-S is located, with the understanding (again) that USEPA Administrative Record-based reporting shows that MW 19-S bypasses the shallow aquifer ("Unit 1") and draws from the USEPA-acknowledged "confined deep aquifer ('Unit 2'), which has no hydraulic connection to the shallow aquifer in this area." Extraction of groundwater from a confined deep aquifer with minimal contamination does not provide (and has not provided for 20 years) accurate readings for a confined shallow aquifer with substantial VOC contamination, nor does the use of an open borehole well for testing under said conditions (which is how USEPA Region III described MW 19-S in response to previous questions regarding this issue). Use of an open borehole well with an interval "that includes both Unit 1 and Unit 2" under said conditions yields diluted results (proven by historic equivalent readings between 19-S and 19-D). Furthermore, this is a violation of USEPA RCRA groundwater monitoring parameters. So again, to clarify, reporting is being requested that provides accurate readings for the chemical plume contamination in the shallow aquifer in the location of MW 19-S (i.e. underneath the 100 "condominium" building in the Mews at Wyckford Commons subdivision). 2) Reports for groundwater well testing for MW 19-S (despite aforementioned accuracy issues), MW 19-D, and MW 18-S for the stated time period. If the lack of inclusion of MW 19-S in the "T.I. Monitoring Well Network" is going to be used to exclude	3/18/2014

EPA-R2-2014-007546	Robert Paul La Gravenis	K&L Gates LLP	I am submitting this document request pursuant to the Freedom of Information Act (5 U.S.C. Â§ 552 et seq. This request concerns the United States Environmental Protection Agency's files relating to the Diamond Alkali Superfund Site (the Site) which includes the former pesticides manufacturing plant and surrounding properties at 80 and 120 Lister Avenue in Newark, New Jersey, the Lower Passaic River Study Area and the Newark Bay Study Area. The EPA Site ID number is NJD980528996. Specifically, EPA's Proposed Plan for the lower 8 miles of the Site provides as follows: The NJDEP use of do not eat values of 0.0077 ng/g, 240 ng/g, and 540 ng/g to set fish consumption advisories for 2,3,7,8-tetrachlorodibenzo-p-dioxin - toxic equivalency (TCDD-TEQ) polychlorinated biphenyls (PCBs) and mercury, respectively. Use of PRGs that exceed these NJDEP advisory triggers would not be protective of allow additional consumption of fish/crabs hereinafter referred to as Fish Advisory Levels. The cited language regarding Fish Advisory Levels is found in the footnotes for Table 2-10 in the FFS report, as well as the footnotes for Tables 1-8 and 1-10 of Appendix E. In particular, I request any and all documents, including but not limited to emails, memos, reports and correspondence, that form the technical basis for the New Jersey Department of Environmental Protection's Fish Advisory Levels, including but not limited to exposure assumptions, toxicity values, and target risk levels used by the NJDEP to derive the Fish Advisory Levels. I would ask that you contact me at your earliest convenience to discuss arrangements for providing the requested documents. EPA-R6-2014-009803	Mr. John T Arnold	Delta Environmental Law, LLC	This FOIA request seeks information related to the following publication: EPA (1984). "A Ground-Water Protection Strategy for the Environmental Protection Agency." U.S. Environmental Protection Agency, Office of Ground-Water Protection. This document states: "A similar situation obtains at pits, ponds, and lagoons-- usually grouped and referred to as surface impoundments--that receive both hazardous and non-hazardous wastes. EPA's recently completed Surface Impoundment Assessment (SIA) surveyed the numbers and locations of surface impoundments, and estimated their potential effects on groundwater quality. The SIA defined impoundments to be any significant man-made or natural depression used to treat, store or dispose of waste (agricultural, mining, oil and gas, municipal and industrial)." This request pertains only to documentation related to oil and gas activities located within Louisiana. I request the following information as it relates to the aforementioned study and work conducted in relation to the associated SIA dataset: 1. A copy of the Surface Impoundment Assessment dataset containing data for any and all surface impoundment locations located in Louisiana. 2. Any and all documentation, including, but not limited to, photographs, maps, diagrams, sample results, and field notes, related to all oil and gas surface impoundment assessments conducted in relation to impoundments located in Louisiana. 3. Any and all documentation related to oilfield groundwater remediation and restoration within Louisiana. I am more than willing to help narrow or clarify the request in any way to make the search for documents more efficient and effective. Please contact me prior to the generation of any copying charges. Thank you for your help, and please let me know if you have any questions.	8/26/2014

EPA-R9-2014-005040	Mr. William E Parrish	Anderson Valley Advertiser	The Environmental Protection Agency conducted an elaborate clean-up of mercury contamination in and near the eastern arm of Clear Lake, in Northern California's Lake County in the 1990s and 2000s. In 1998, the EPA's Region 9 office conducted overflight testing of mercury contamination in the area. As I understand it, the EPA contracted with a testing laboratory based in Cincinnati, OH to assess the data compiled in the overflight operation. In accordance with the Freedom of Information Act, I request copies of the following materials pertaining to these overflights and associated laboratory analyses: * All information and data the EPA provided the laboratory to analyze in connection with its assessment of mercury contamination in Clear Lake and on surrounding lands. * All the information and write-ups the laboratory supplied to the EPA in connection with assessing mercury contamination in Clear Lake and on surrounding lands. * All data procured in the course of overflight testing of mercury contamination in Clear Lake. * All videos taken during said overflight testing. I ask for a determination on this request within 10 days of your receipt of it, and an even prompter reply if you can make that determination without having to review the records in question. If you determine that any or the information qualifies as exempt from disclosure, please note whether, as is normally the case under the Freedom of Information Act, the exemption is discretionary, and if so whether it is necessary in this case to exercise your discretion to withhold the information. Please cite the legal authorities on which you rely in making any decision not to disclose these records. If the appropriateness for disclosure of some of the requested records cannot easily be determined while others can, please do send me those which are cleared for disclosure as soon as possible and withhold the others until their eligibility is determined.	3/26/2014

EPA-R10-2014-002309	Michael P Mazza	American Petroleum Environmental Services	I Dave, as you know I recently have fully taken over the Portland 11535 N force Ave site. Until now I have always viewed this problem as someone else's problem. Either Encore Dec or Orrco. In my opinion both companies have failed to follow the proper guide lines with concern to this problem. As you all know tank 12, and the 11535 N force Ave facility was owned by Encore Dec Llc out of NV. American Recyclers LLC was just operating the facility. AR has never been involved with anything regarding tank 12. I am not privy to the deal Encore Dec LLC made with Orrco for the contents of tank 12 problem. I have only heard conflicting stories of ownership from both parties. I am reaching out for help from you and all of EPA to help resolve this issue ASAP. I need all of the following documentation that EPA has as follows please. 1. All shipping documentation from the original source/generator. 2. All facility receiving documentation that identifies the shipping source as being the source of contamination of tank 12. 3. All EPA test results of tank 12, and any other analysis confirming the source designation of tank 12. 4. Any other information that proves the source of tank 12's contamination origins. 5. Any paper trail the insure proof of the source of tank 12's contamination. I want to remove this problem from the site by properly assigning the proper generator source ASAP. I need to designate the source/generator in order to do that. Orrco and Encore Dec don't have adequate recorded to prove any of the above question. In fact they don't have any record at all. So I am starting from square one. I have been all over the facility looking for transfer logs or anything that might identify the above request. To my knowledge no of this information regarding tank 12 exist. Please feel free to call me or email me back. Michael P Mazza President	1/6/2014

EPA-R2-2014-001539	Anna Martinez		Re: 104(e) Responses from H.J. Baker & Bro. Inc. (and Forrester Fertilizer Co.) Regarding Gowanus Canal Superfund Site Dear FOIA Officer: Pursuant to the Freedom of Information Act (5 U.S.C. Â§552), I request the opportunity to review and photocopy all records relating to any information requests under 42 U.S.C. Â§9604(e) (CERCLA Section 104(e)), including Agency requests and any responses and supplements thereto from H.J. Baker & Bro. Inc. (and Forrester Fertilizer Co.) at the CERCLA Superfund site, Gowanus Canal, maintained by your agency. Based on an internet search it appears that the 104(e) request was sent to H.J. Baker & Bro. Inc. (and Forrester Fertilizer Co.) on March 2011, answered in September 2011, and supplemented in 2011. For the purposes of this request, in addition to the standard definition of "record" under FOIA, the term "record" shall also include, but not be limited to, documents, reports, papers, notes, data, evaluations, letters, photographs, drawings, diagrams, maps, films, sound recordings (paper and/or electronic) as well as electronic mail. I agree to pay reasonable search and photocopy fees associated with processing this request. However, I would like to have notification of the volume of responsive documentation prior to the undertaking of any photocopy or reproduction work as we may wish to come to your office to review the responsive records prior to copying which may limit the expenditure required. Thank you for your assistance in this matter. Should you have any questions or need further information, please do not hesitate to call.	12/2/2013

EPA-R8-2014-007822	Mr. John Greenewald	The Black Vault	To whom it may concern, This is a non-commercial request made under the provisions of the Freedom of Information Act 5 U.S.C. S 552. My FOIA requester status as a "representative of the news media." I am a freelance television producer often working on documentaries related to my FOIA requests, my work is commonly featured throughout major news organizations, and I freelance writer for news sites as well. Examples can be given, if needed. I prefer electronic delivery of the requested material either via email to john@greenewald.com or via CD-ROM or DVD via postal mail. Please contact me should this FOIA request should incur a charge. I respectfully request a copy of all emails sent by EPA, Region 8 employees and management staff, that pertains to "bathroom behavior". On June 25, 2014, Government Executive wrote the follow at http://www.govexec.com/federal-news/fedblog/2014/06/epa-employees-told-stop-pooing-hallway/87223/ It appears, however, that a regional office has reached a new low: Management for Region 8 in Denver, Colo., wrote an email earlier this year to all staff in the area pleading with them to stop inappropriate bathroom behavior, including defecating in the hallway. Please include all documents, electronic or otherwise, that pertain to the above. This would include, but not be limited to, the referenced email, other email responses and announcements, memos, letters, inter-agency communications, investigations, etc. Thank you so much for your time, and I am very much looking forward to your response. EPA-R2-2014-004946	Jay Tufano		I am making a request in regards to the Knolls Atomic Power Lab site in Niskayuna, NY. Following a minor radioactive leaking event in 2010, we understand that the EPA imposed a number of conditions on the Department of Energy including a containment shell before the project could be continued. I believe these conditions were part of a 40-page Agreement with the DOE. I am not sure when the Agreement/Report was issued but the article I read discussing the Agreement dates back to March 2012. So the timeframe for the document would be between January 2011 and March 2012.	3/25/2014

EPA-HQ-2015-000635	Bridget DiCosmo	Inside EPA	I am requesting copies of all comments submitted to EPA and received of Oct. 20, 2014, on EPA's May 8, 2014 proposed Gas Star Gold program framework. The agency has sought comment from industry and others on the program. Emails between myself and the agency show that I first requested the comments on Oct. 9 via an EPA spokesperson, on the understanding that the comment deadline was Sept. 30, which EPA officials indicated earlier this year. On Oct. 17, that spokesperson indicated that EPA would not provide the comments and that the agency made the decision to extend the comment period. The agency's website indicates the comment period is now "ongoing." This FOIA request is appropriate in order to obtain the comments while they still hold news value, given EPA's decision to move to a rolling comment period. Even though EPA continues to take comment on the program, I am seeking all comments filed up to Oct. 20 (the date of this FOIA request) to use in a news article on the comments filed so far. EPA's refusal to provide the comments to me means that FOIA is my only option to obtain these documents, which are in the public interest given the boom in the natural gas sector and EPA's work on gas issues.	10/20/2014

EPA-R5-2014-002715	Ms. Marisa A Taylor	McClatchy Newspapers	Pursuant to the Freedom of Information Act, I am requesting access to information maintained by your agency. I would like a copy of the Premium Class Travel reports that your agency is required to file with the General Services Administration for FY 2009, 2010, 2011, 2012, 2013 and if available at time of processing FY 2014. This report documents premium travel by your agency employees. Agencies must submit data or a negative report to GSA annually. If your agency submitted a negative report, I would like a copy of it. If your agency is exempt, your agency is required submit aggregate information. If your agency was exempt and submitted aggregate information, I would like a copy of the aggregate information. In the event that this request results in research or copying, McClatchy Newspapers requests a public interest fee waiver because the material being sought is to be used in a news story. If a fee waiver is not granted, I agree to pay reasonable duplication costs. However, please notify me in advance if you anticipate those fees will exceed \$50. I would prefer an electronic version of these reports. However, if one is not available or providing an electronic version would delay processing, I would accept the report on paper. If any part of this request is not granted, please provide legal justification in writing for each portion of information withheld, and cite the specific exemptions in FOIA law that allows that withholding. We would argue strongly that there is a significant public interest in our reviewing the material being sought. As the nation's third largest newspaper group with 30 dailies and a combined circulation of nearly 3 million, we feel we qualify as acting in the public interest. The cost of travel by government officials is obviously of interest to the American public. As a result, I would like my FOIA to be processed in an expedited manner. EPA-R2-2014-003232	Maxwell Galka		Lead Enforcement Program Dear FOIA Officer: My request is for an extract from the case management system of all lead-related enforcement actions in the State of New York since 1/1/2008. For the avoidance of doubt, this request is not for a large list of documents, but rather for a single electronic file (Excel) with the tabular information for each case. The specific information I am looking for is: - Date of the enforcement action - Building address(es) of the action - Name of the respondent (individual or business entity) - Any other field contained in the case management system describing the substance/topic of the case Alternatively, if the above information is not easily separated from the full body of cases, I would like to cancel the above request and instead make an "omnibus" request for the closing memos of all lead enforcement actions from 1/1/2008 to the present. In this case my preference is to receive the documents in electronic (PDF) format. Please let me know if you have any questions or comments regarding this request. Thank you in advance, Maxwell Galka	2/3/2014

EPA-R4-2015-000509	Sarah Stokes	Southern Environmental Law Center	SELC requests all documents in the possession or control of the EPA that relate to the United States Corps of Engineers' ("Corps") Nationwide permit 27 ("NWP-27") granted to Mr. Scott Moody, from Baldwin County, AL on March 10, 2011, as well as any documents that relate to the individual 404 after-the-fact permit application, noticed SAM-2011-01826-JEB. These documents are to include, but are not limited to: 1) Any written or electronic communications regarding the 404 permit application or Mr. Moody's NWP-27, especially communications with Mr. Moody, the Corps, the U.S. Fish and Wildlife Service, the Alabama Department of Conservation and Natural Resources, the Alabama Department of Environmental Management, and/or the National Resources Conservation Service; 2) Mr. Moody's applications or documents expressing interest in a NWP-27 and/or a 404 permit; 3) Any written or electronic minutes from meetings concerning Mr. Moody's property or his applications; 4) Any notes taken while onsite or while communicating with Mr. Moody; 5) Any maps, photographs or sketches of the area concerning this NWP-27 and/or the 404 permit; 6) Any permits (along with any accompanying environmental documents), concurrences, and/or opinions written regarding Mr. Moody's property. For the purposes of this request, the term "documents" includes all written, printed, recorded or electronic materials, communications, correspondence, memoranda, notations, copies, diagrams, charts, maps, photographs, tables, spreadsheets, formulas, directives, observations, impressions, contracts, letters, messages and mail in the possession or control of the EPA.	10/15/2014
EPA-R2-2015-000977	Miss Ashley Hatfield	Tetra Tech	Dear Records Access Officer: (1) Please email the following records if possible: Tetra Tech Inc. (Tetra Tech) is conducting a Phase I Environmental Site Assessment (ESA) at Town of Esopus Landfill, 70 West Shore Court, Esopus, NY. This investigation is being conducted in order to identify evidence of any recognized environmental conditions (REC) that may have an adverse environmental impact upon the subject property. Tetra Tech is requesting any records you may have concerning the property of interest. Any assistance from your office would be greatly appreciated. (2) If all the requested records cannot be emailed to me, please inform me by email of the portions that can be emailed and advise me of the cost for reproducing the remainder of the records requested (\$0.25 per page or actual cost of reproduction). (3) If the requested records cannot be emailed to me due to the volume of records identified in response to my request, please advise me of the actual cost of copying all records onto a CD or floppy disk. (4) If my request is too broad or does not reasonably describe the records, please contact me via email so that I may clarify my request, and when appropriate inform me of the manner in which records are filed, retrieved or generated. If it is necessary to modify my request, and an email response is not preferred, please contact me at the following telephone number: 585-899-6183. If for any reason any portion of my request is denied, please inform me of the reasons for the denial in writing and provide the name, address and email address of the person or body to whom an appeal should be directed. EPA-R4-2015-000564	Mr. john garcia		From 1959 thru 1972 Proctor Road Landfill was one of the most heavily used dump in West Central Florida, taking in trash from Tampa to Ft. Myers, It was not monitored and would take any truck load of trash from .25 to .75 per load. The landfill was unlined and since then has created leachate pockets underneath. In the 1990's test showed high levels of Lead, Benzene, chromium, arsenic and other carcinogens. The EPA Facility ID is FLN000409986 and was also known by other names such as Sugar Bowl Landfill, Pine golf course, Palm golf course and foxtire landfill. In the 1990's horses, pets and people contacted and died from environmental cancer, presumably from this toxic landfill, many lived to the west of the landfill and noted fish kills, methane gas bubbles and trash coming up through the greens. You can see a few people testify under oath regarding family members who lived on the property and died from cancer, and people who have contracted cancer living near the property. www.foxtirewest.com I know this may be a lot of work, but I would greatly appreciate it if you could send me information both legal and ethical, as to why you should not build on this unlined golf course property; or any landfill property in Florida (especially unlined). This information would be extremely helpful and your resources are much better than I could ever find on the internet. I have copied and pasted the bits of information I have gathered pertaining specifically to this land. I appreciate your help, as I must have this information together as soon as possible, Thank you for your assistance with this matter. -----My notes below Health Consultation On and Off Site Surface Soil / EPA Facility ID FLN000409986 Starts on page 26 thru page 58 Site Inspection Report Former Proctor Road Landfill aka Sugar Bowl Landfill FLN000409986 Starts on Page 59 thru c-146 United States	10/17/2014

EPA-R7-2015-000399	Denise H Vaughn		I am a reporter filing this FOIA request on behalf of the West Plains Daily Quill in West Plains, Mo., for a news story about EPA's recent inspections of and notices of violation issued to Coastal Energy of Willow Springs, Mo., a company that stores 2.8 million gallons of chemicals near the Eleven Point River, a federally protected scenic river. I am requesting email and paper mail correspondence on this topic that was sent 1) between EPA Region 7 authorities and Coastal Energy officials 2) between EPA Region 7 authorities and authorities with the Missouri Department of Natural Resources and 3) internally between EPA staff members. Please limit correspondence to items sent from January 1, 2014 to the present, with priority for items after July 1, 2014. Please do not send the following documents because I already have them: Coastal FRP Coastal SPPC Plan Coastal Energy Corporation SW Inspection and Attachments (Part 1, Part 2-part 1, and Part 2-part 2) I also have the MO. DNR Operating Permit and a number of DNR documents. My goal in making this request is to learn specifics of the current status of the six notices of violations sent to Coastal Energy following a July 2014 joint inspection conducted by EPA, plus any follow-up. I understand that Mo. DNR is involved in the enforcement action, so correspondence with that agency is particularly important. Paul Doherty conducted the February 2014 inspection. The July 2014 inspection was conducted by Naji Ahmad, EPA Environmental Engineer and Arthur Goodin, Water Pollution Control, DNR Southeast Regional Office. Please include correspondence involving these individuals and their immediate co-workers.	10/10/2014

EPA-HQ-2014-009724	Mr. Stuart A Walker		Dear FOIA Officer, I am seeking, under the Freedom of Information Act and the Privacy Act the status of processing of previous FOIA requests related to investigations by the EPA Office of the Inspector General (OIG) pertaining to me, Stuart Walker, an employee of OSWER. The requested information includes an answer on why EPA is overdue by 7 months on one FOIA request and over 4 months on a second FOIA request. The overdue FOIA requests that I previously submitted are: (1) EPA-HQ-2014-002025, which was submitted on 12/19/2013 and was due on 01/21/2014, and (2) EPA-HQ-2014-004684, which was submitted on 03/18/2014 and was due on 04/15/2014. Both of these overdue FOIAs are listed on the FOIA online database as in the middle of five phases, the "Assignment" phase, and they have not yet moved to the fourth phase of "Processing." On 01/28/2014, I received an email from EPA with the following information regarding the first FOIA. "Dear Mr. Walker: Thank you for your inquiry on FOIA request EPA-HQ-2014-002025. The case has recently closed and I just received the potentially responsive files yesterday. Rather than send you another (b)(7)(A) letter while the case was in its final stages, we decided it best to hold off on the response so we could get you the documents. The next stage is for the case file to enter our processing queue for review and any necessary redactions, before we can send you the requested material. I estimate this to take a few weeks due to other pending cases already in the queue. If it is a large case file, we may be able to provide interim responses but I will not know that until we begin the review. Feel free to contact me if you have any additional questions. Best regards, Scott Scott Levine Associate Counsel / OIG FOIA Officer" I would like to receive an interim response if any material has been gathered in answering these two FOIAs, and an estimate of when EPA	8/22/2014

EPA-R1-2015-000281	Dr. Leonardo Giacchino	Solutions Economics, LLC	Pursuant to the Freedom of Information Act, I request that you provide me with a copy of any and all documents, including electronic documents, regarding permit applications received by your agency, permits issued by your agency and submarine power cables in the Cape Wind offshore wind farm project currently under development by Energy Management Inc. (EMI). The Cape Wind project will consist of 130 offshore wind turbines with a capacity of 468 megawatts, and will be located in federal waters off the coast of Cape Cod, MA on Horseshoe Shoal in Nantucket Sound. The Cape Wind Project filed its initial permit applications in 2001, and received approval from the U.S. Department of Interior in 2011. The scope of this request is limited to (1) any permit applications received by your agency concerning the Cape Wind Project; (2) any permits issued by your agency concerning the Cape Wind Project; and (3) documents regarding any submarine power cables related to the project. The project is described in greater detail at http://www.capewind.org/what/overview (Attachment A). I hope that this background will help your agency to locate related records. I am willing to incur search and copying expenses for this request up to and including \$500.00. Should search and copying expenses exceed this amount, please provide an estimate of those expenses. Thank you for your prompt consideration of this request. If you have any questions, please do not hesitate to contact me at leonardo.giacchino@solutionseconomics.com or (202) 525-1352 x100.	10/8/2014

EPA-HQ-2013-010011	Dr. John H Scofield	Oberlin College	In most cases buildings of less than 5,000 sf in size are not eligible to receive the EPA's ENERGY STAR building score. The EPA's documents which describe the technical methodology for these building types state this restriction, but provide no evidence or justification to back it up. This is the case for the following models: office/finance/courthouse, hotel, K-12 school, medical office, retail, supermarket/grocery, and warehouse. In technical documents for these buildings the only justification offered is the statement "analytic filter -- analysis could not model behavior for buildings smaller than 5,000 sf." I am requesting to receive copies of any documents, memos, reports, and/or emails that address this issue and provide any evidence to support this claim for each of the building models that include this restriction. Here I am attaching one of the technical documents that states this restriction.	9/17/2013

EPA-HQ-2014-005374	Mr. David E Lindow	BASF Corporation	Dear Sirs, I am a Product Regulations Specialist at BASF Corporation. I am seeking information on PMN number "PMN91-0290" - CAS 42613-21-8 (Silicic acid, titanium salt). I believe this PMN was originally filed by Engelhard Corporation in 1991, BASF has since purchased Engelhard Corporation and the rights to all of its products. Somewhere in the transfer of information to BASF, the information on this PMN was lost. I am therefore, seeking to recover said information for our files and the EPA seems to be the only place that may have it. Can you please send me a copy of the confidential PMN and all confidential attachments. If you need more proof of my capacity to receive these documents, I would be glad to provide it. Best regards, David Lindow Because BASF is the co-owner of the information, a fee waiver would be appreciated.	4/8/2014

EPA-R6-2014-010037	Mrs. Jennifer A Jumper	Foley & Mansfield	Asbestos. Looking for documents associated with asbestos present and/or removed from Armco Steel in Houston, Texas (Formerly Sheffield Steel). Address is 13100 Industrial Road, Houston, Harris County, Texas, 77013. I have read that this location was on the shipping channel in Houston, Texas. I performed an envirofacts search, and it indicated that the EPA registry ID for this location is 110038606853. I am specifically interested in what type of asbestos, if any, was present and/or removed from this location, as well as any inspection reports that may exist that indicate that asbsetos was present at this location.	9/3/2014
EPA-HQ-2014-005737	John M Becher	Appalachian Mountain Advocates	Pursuant to the Freedom of Information Act, we request a copy of the review comments submitted by Dr. Charles Menzie on the U.S. Environmental Protection Agency's March 2011 report entitled "A Field-Based Aquatic Life Benchmark for Conductivity in Central Appalachian Streams." Dr. Menzie is listed as one of the "Reviewers" on page xi of that report. These comments are not privileged because during Dr. Menzie's May 2, 2012 deposition in OVEC v. U.S. Army Corps of Engineers, Civil No. 3:11-cv-149 (S.D.W.Va.), he voluntarily disclosed the substance of those comments. See attached deposition excerpts. Voluntary disclosure of documents reflecting the deliberative process results in a waiver of the privilege. Sikorsky Aircraft Corp. v. United States, 106 Fed. Cl. 571, 584 (Fed. Cl. 2012). In addition, Dr. Menzie did not object during his deposition to disclosure of his comments, and did not provide them only because he could no longer find a copy in his files. EPA-R3-2014-006099	Mr. Stephen G Swisdak		Pursuant to the Freedom of Information Act (FOIA) (5 U.S.C. Â§552). I am requesting copies of specific records in the possession, custody, or control of the U.S. Environmental Protection Agency (EPA) relating to the Clearview Landfill and Folcroft Landfill (collectively, the Lower Darby Creek Area Superfund Site) in Delaware/Philadelphia County, Pennsylvania. Specifically, I request copies of all records relating to EPA's efforts to identify potentially responsible parties (PRPs) alleged to have contributed contamination to either landfill. I am particularly interested in obtaining copies of all 104(e) information requests, responses, and related correspondence for both landfills. I am also interested in obtaining copies of any General Notice Letters and related correspondence that have been issued for both landfills. While I understand that EPA maintains a large volume of other records relating to these landfills (e.g., technical and scientific literature), I am presently only interested in obtaining copies of PRP-related records and correspondence. If possible, I would appreciate receiving copies of releasable materials in electronic format and as soon as possible, rather than waiting for all of the responsive documents to clear your review process. I agree to pay all reasonable and standard processing fees authorized by 5 U.S.C. Â§ 552 and the applicable regulations up to \$100. Please contact me for further authorization if the fees will exceed this amount.	4/30/2014
